

OVER 3000 MAGENTO MERCHANTS  
ARE USING ONESTEP CHECKOUT

# 1neStep Checkout™

shopping cart optimization for Magento

## MAKE IT SIMPLE - INCREASE CONVERSIONS

OneStepCheckout simplifies the checkout process of your Magento store. OSC is all about reducing customer abandonment, and increasing customer conversions.

OneStepCheckout is a total revamp of the standard checkout process in Magento. The core feature is that it reduces the six standard Magento checkout steps down to one. Totals and prices are dynamically updated via AJAX when shipping/payment method is selected. The user simply fills in their address and chooses delivery/payment methods on the same page, rather than having to do a separate step for each.

Improving the checkout process results in more customers completing their sales, and this has an immediate impact on your bottom line. It is the single most effective technical change you can make to reduce shopping cart abandonment.

## IT WORKS!

OneStepCheckout is a rock-solid, well documented, thoroughly tested extension and we provide support if you run into problems. More than 3000 Magento merchants are already using our module, so it's safe to say it's a high quality and proven product.

## EASY INSTALLATION

OneStepCheckout is developed like any regular Magento extension and follows the Magento module guidelines. It does not override any core classes or templates, which makes it unlikely to come into conflict with other modules. Installation is as easy as uploading the contents of the ZIP file to your Magento installation, and the rest will be done from the administration interface. Also, the module will not overwrite any files, just add new ones.

### JUST ONE STEP

Reduces the original Magento checkout process from six steps to one!

### INCREASE SALES

Our customers say that OneStepCheckout increased their sales even up to 60%.

### IT'S EASY FOR YOU

OneStepCheckout is easy to integrate and fully compatible with your Magento store.

### OSC DOCUMENTATION

Our Wiki contains all the information clients need to install and maintain the OSC.

### SHOWCASE

### FEATURING OSC CLIENTS

Our checkout is established as the number #1 alternative to the standard Magento checkout.

### TESTIMONIALS

The feedback we have received from our clients has been overwhelming. Read on our web and on Connect.

## 1neStep Checkout™ STANDARD

Our Standard edition is for the smaller Magento Community stores that can install the module themselves, and only need to use it for a single domain. It comes with free upgrades for 6 months after purchase.

## 1neStep Checkout™ PROFESSIONAL

Our Professional edition is for stores that are running Magento Professional or Magento Enterprise versions. It fully supports all features of both these Magento versions, including use of store credit as well as reward points directly in the checkout page.

## 1neStep Checkout™ ENTERPRISE

Our Enterprise edition is for customers that needs to use our checkout for multiple domains. The Enterprise license covers all Magento platforms and versions, and offers lifetime support and upgrades.
